DEATHS AND FUNERALS

EDWIN J. PICKFORD.

The funeral services over the remains of Edwin J. Pickford were held yesterday at 2 p. m. at the North Ogden meeting house, Bishop James Ward presiding and conducting.

The musical numbers were furnished and rendered by the ward choir, with a solo and chorus, "Not Half Has Ever Been Told," by Miss Mabel Storey. Mr. Orson Griffin sang a solo entitled, "Some Time We'll Understand." A male quartet sang "Not Death to Die." A duet was rendered by Miss Amanda Ellis and Orson Griffin. The speakers were Geo. Brown, M. N. Reynolds, A. H. Rogers, J. W. Gibson and Bishop James Ward, all of whom spoke in high terms of the deceased. There was a large attendance and many beautiful floral designs from friends of the deceased. The interment was in the North Ogden cemetery.

C. LESLIE NEWBY.

The funeral of C. Leslie Newby was held at 2 o'clock yesterday afternoon at the First ward meeting house, with Bishop D. H. Ensign presiding. The musical program was furnished by the ward choir, assisted by Miss Bernice Brown in a solo and Mrs. Nicholas and Mrs. Glasier in a duet. The speakers were Pres. C. F. Middleton and Elder Garner, and the interment was made in the Ogden City cemetery.

LYLE MURRAY.

The funeral of Lyle Murray was held at 10 a. m. yesterday at Larkin's funeral chapel, with Bishop D. H. Ensign officiating. The music was furnished by members of the First ward choir, who gave a duet and a quartet. The speakers were Elder Stevens, J. M. Taylor and Bishop Ensign. The interment was in the Mountain View cemetery.

JOHN M. JOHNSON.

Funeral services over the remains of John M. Johnson, the horseman who died at the General hospital on Sunday, were held this morning at 10 o'clock at Larkin's funeral chapel, after which the remains were sent in care of the wife and son of the deceased to Franklin, Tenn., for burial. The Rev. J. E. Carver presided at the service.

WILL SHOOT DUCKS IN SPITE OF BAN

At least one duck club is going to shoot on the opening of the season, October 1, in spite of the diseased condition of the ducks this year. At a meeting of the directors of the West Lake club, which controls considerable district south and west of the city, it was decided to shoot with the opening of the season. The members claim they have no diseased ducks in that vicinity, and for that reason can see no reason for failing to open the season October 1.

BUILDING THE SAN PEDRO'S HIGH LINE

The Utah Construction company of Ogden and the Shattuck Construction company of California, the contractors for the building of the new high line of the Salt Lake Route through Meadow Valley, have let parts of the work to the Wasatch and Sumption construction companies in order to hasten the operations. There are now 2,000 men at work on the new high line, and the contract calls for the completion of the contract by March 1 next. A forfeit of \$100 per day for each day thereafter that the job remains unfinished is provided for in the document, so that extra help and additional speed was necessary. The Utah Construction company has built large store houses for grain, supplies and equipment and all along the line everybody is busy.

SHEEP OUTLOOK IS NOT GOOD

"On account of lack of water and the unusually dry season generally,

making the range in the worst condition it has been in for years, sheep are not in as good a condition as usual," was the statement made by A. F. Anderson of Grantsville, United States Inspector and associated with the bureau of animal industry.

Twenty-five thousand sheep have just been clipped at Ibapah, Tooele county, and probably one-fourth were affected with scab. Some were worse than others, but Mr. Anderson believes the two dippings the sheep received will cure most of the cases.

Thousands of sheep are being shipped and landed on the markets at prices that are not encouraging on account of the sheep not being in prime condition. The winter ranges from Deep Creek to Steptoe valley in Nevada, in fact all over that section are in bad condition, and flockmasters are in a difficulty just what to do with their flocks this winter. Hundreds of thousands of sheep are wintered in that section every year, and hay out there is scarce. Some of the sheepmen are already talking about shipping in hay and corn to meet the emergency of the approaching winter, and it is said that some of the small owners would part with flocks at a sacrifice.

Men Old at 35

One Million Baldheads Who Thought Dandruff Wasn't Dangerous.

In the United States and Canada today there are nearly a million men who at 35 can be put in the baldhead class.

When these men had thick vigorous hair, dandruff made its appearance. That was the time to attack the enemy of mankind—the persistent little devil called the dandruff microbe, or germ that burrows deep down into the hair root and saps it of the vitality that is so essential to the hair.

Young men or any man, for that matter, beware of the dandruff germ; it is not a theory, but an actual condition that confronts you. That dandruff is caused by a germ, is proven beyond question. That this germ destroys the hair root is today a matter of common knowledge.

BADCOV'S PHARMACY, the druggist, has the remedy that kills the dandruff germs. He guarantees it to eradicate dandruff, stop falling hair and itching scalp in two weeks, or money back. It is called PARISIAN SAGE, and can be obtained at druggists in every town in America—ask BADCOV'S PHARMACY for it. The girl with the auburn hair is on every bottle of Parisian Sage.

THROW OPEN COAL LANDS

Mining Congress Calls the Segregation Order Rank Socialism

Los Angeles, Cal., Sept. 28.—One of the resolutions presented to the resolutions committee of the American Mining congress for consideration today calls upon the federal congress to repeal the law segregating coal lands and to instruct the president to abrogate the withdrawal orders he has issued affecting such lands.

The law, it is asserted, is "rank socialism; it impairs the value of the millions already invested in the mining industry and not only destroys the miners' hope of fortune, but makes it impossible for him to secure the necessary capital to develop his claims."

The resolution concludes: "That we protest against the attempt to segregate the surface from mineral property, and that the proposition to lease the mineral is rank so-

cialism, adapted from the ways of Tasmania, New Zealand and Australia have introduced, and are against public policy. We call upon congress to abrogate the law segregating coal segregation and ask that title to mining property be granted in the future as in the past. We demand this as a constitutional right in all states heretofore admitted to the Union, and as an act of justice in the territories controlled by congress."

Another resolution considered today has for its object the elimination of mining wildcats. It proposes that the national bureau of mines require from mining companies periodical reports giving all the information regarding their business and financial affairs that could be desired by the careful investor.

George S. Rice of the bureau of mines, Washington, D. C., in an address yesterday discussed mining acts. He recounted statistics to show that the death rate due to mining accidents is appalling. He then continued:

"It is the tendency to look forward to a time when each industry will bear the load of caring for its killed and injured. Already a number of progressive mining companies have started insurance organizations, the cost of which is borne partly by the employees and partly by the companies. In any case, there can be little question that if an industry is in a thoroughly healthy condition, it should be able to bear the cost of caring for those injured in its business and for the pensioning of needy widows and orphans to a greater or less extent. As a matter of common humanity this proposition can hardly be disputed. If conditions prevail otherwise, it means that the price obtained for the product should be used to meet this condition. No doubt this movement must be gradual so as not to disarrange business conditions."

CARD OF THANKS.

To all who so kindly assisted and lent a helping hand during the sickness and death of our beloved son George Leslie Newby. We desire to extend our sincere thanks. It is our earnest prayer that they may all receive the same kind treatment during their hour of sorrow and bereavement. MR. and MRS. THOMAS NEWBY.

AWARDING OF PRIZES AT FAIR

How carefully the Four-State Fair management is handling the exhibits, in the awarding of prizes, is illustrated in the Agricultural department from the judge of which the following letter has been received:

Mr. H. M. Rowe, president and manager, Four-State Fair, Ogden, Utah. Dear Sir:—I have sanded nice samples of sugar beets of the exhibits at the Fair, each sample in a separate sack, the same sealed and properly numbered and have expressed same to the chemist of the Agricultural Sugar company with instructions to make the analysis and report same to you. Very respectfully yours, (Signed) P. A. Dix, judge agricultural department.

Names Are Sealed.

Those in charge at the Fair, in awarding prizes, do not know the name of the exhibitor of any particular sample, as all the names are sealed on the tags and are not exposed to view until after the awards. The system, borrowed from an eastern fair, is giving entire satisfaction.

METHODISTS DO AWAY WITH FAIRS

Chicago, Sept. 28.—Goodnight contribution boxes, collection plates, rummage sales, money-raising socials, missionary envelopes and all the old-fashioned methods of raising church funds are to be done away with by the Methodists of Cook county. By a new system of taxation, the men of the Methodist church will assume entire financial responsibility, and the women and their societies are to be relieved of all care and worry about the matter. The plan was brought to a focus at a meeting in Central church, Evanston, last night. It has been tried out, and this is the way it is to be done. The treasurer of the church interviews each male member and secures from him a pledge, being payable at any period specified by check or coin.

From the total sum, appropriations can be made for minister's salary, church maintenance, special collections for home and foreign missions, charities and other calls for financial support in a general budget. The proposition first came up a year ago, at which time certain churches promised to give it a thorough trial. Results were declared to have been highly satisfactory in each case.

"We tried this plan for a year," announced Rev. Alfred Leach, pastor of a west side church, "and not only have found our revenue increased, but also the attendance, the latter because of the absence of appeals for funds from the pulpit. Where before, we tried hard to raise \$1,200, we raised \$4,000 this year without trouble."

"I can add our endorsement to the plan," said Rev. Horace Williams, pastor of the Central church at Evanston. "I believe it has raised our resources 300 per cent."

AUTOMATIC REVOLVER WOUNDS SAN FRANCISCO ATTORNEY

San Francisco, Sept. 28.—Isaac M. Kalloch, a prominent attorney of this city, accidentally shot and seriously wounded himself last Saturday. According to information regarding the accident, which became known last night, Kalloch was overhauling his hunting paraphernalia at his home preparatory to leaving on a shooting expedition, when an automatic revolver, he was handling was discharged, the bullet entering his heart. His condition was reported improved last night.

WHITE MAN'S HOPE FOUND

Young Giant From Missouri May Be Trained to Meet Johnson

Chicago, Sept. 29.—Miles McLeod, one of the first unknowns to be mentioned as the white man's hope, arrived in Chicago yesterday from his home at Albany, Mo., and will at once undertake to show a few persons interested in finding a man who can dethrone Champion Jack Johnson that he knows something of the fighting game by boxing with Joe Choynski today.

The aspirant for pugilistic honors is six feet and five inches and weighs 225 pounds. He is 28 years old and smokes no pipe, no cigars, no cigarettes, unless he is convinced he can whip Johnson, he never will come forward with an offer to fight him.

"I feel reasonably sure I can beat that fellow," McLeod said, "for I have boxed since I was ten years old, and I know something of the fine points of the game. I believe I can hit as hard as Johnson and I know I can take a deal more punishment."

Joe Choynski, who is trying to find a man to defeat Johnson, said if McLeod can fight at all, he will be just the man to win back the title for the white race, and if he shows a willingness to meet Johnson, Choynski asserted he would take hold of him and train him for his fights.

AUTO DRIVER IS INJURED BY GIRL

New York, Sept. 28.—Joe Matson, the automobile driver, who hopes to pilot a car in the Vanderbilt cup race on Saturday, is under the care of physicians as a result of an accident which occurred while he was out for a practice spin over the cup race course yesterday.

Matson's goggles had become covered with steam and he had slowed down slightly to replace them with a clean pair, when a young girl, standing by the road side, tossed to the driver a small bouquet of wild flowers. She intended that the flowers should land in the car, but poor aim sent the bouquet straight into Matson's face, the stems going into his eyes and blinding him temporarily. Matson's big car gave a lurch to the side of the road and might have been wrecked but for the driver's quick recovery of himself.

COOD SHOOTING.

San Francisco, Sept. 28.—In weather so foggy that only occasional glimpses of the target could be had, the Sixteenth Coast artillery, commanded by Captain Thomas C. Ashburn, made what is regarded as a remarkable record in service practice at Battery Bouteille yesterday. Nine hits out of a possible ten were registered with five-inch rifles at a range of about three miles.

A becoming hat and costume are the more effective when the wearer has attractive hair.
